

### Newlec DALI Multi-Purpose Connection Box NL5713

#### Product description

This Newlec DALI multi-purpose connection box gives installers maximum flexibility and true freedom in building a DALI system by allowing them to use their own cable without the need for expensive connectors. This is generally connected to a Power Supply Unit to run the DALI network via the Newlec Power Supply Unit (NL5712).

#### Key features

- DALI Multi-Purpose Connection Box for maximum connection flexibility.
- Connects up multiple strings of DALI Occupancy Detectors and lighting.
- Maximum 10A rating per box.
- 8 Multiple connections per box.
- Connects to Newlec Power Supply Unit (NL5712) for Newlec DALI network.
- Can control LED and fluorescent DALI luminaires.

#### Technical details

- Max 10A
- Complies with IEC 62386-101,-102,-103
- Power Consumption NIL
- Flame Retardant ABS material
